The test is a requirement for candidates seeking an English as a Second Language Supplemental (ESL) certificate.

Test Characteristics

Number of test items: 70 multiple-choice questions. Typically, 60 multiple-choice questions are scorable and 10 multiple-choice questions are used for pilot testing purposes and are nonscorable (i.e., they do not contribute to the examinee’s score).

Score scale: The English as a Second Language Supplemental (ESL) test is scored on a 100–300 scale, with a passing score of 240.

Test Structure
The English as a Second Language Supplemental (ESL) test contains the following domain and test item structure:

Test Administration
On each test date, the English as a Second Language Supplemental (ESL) test is administered as a half-session test during the morning and afternoon test sessions. Each session is five hours long.

Scoring
Results are reported as scaled scores in a range from 100 to 300, with a passing score of 240. The total test score is based on an examinee’s performance on the entire test. Domain and competency performance information, which is provided on the Examinee Score Report, is based on an examinee’s performance on each domain and each competency.
Please note:

- Domain and competency performance information presents the number of questions answered correctly out of the total number of scorable questions appearing on the test.
- Domain and competency performance information is included to help assess an examinee’s areas of relative strength and need.
- Domain and competency performance information may be based on comparatively few test questions and may be less reliable than total test information.

HOW TO READ YOUR TExES SCORE REPORT

Your score report has three sections: 1) Total Test Performance, 2) Performance by Domain, and 3) Performance by Competency. These results have been forwarded to the TEA and State Board for Educator Certification (SBEC) and, based on the information you provided, to your recommending Texas educator preparation program (college, university, or alternative certification program). Scores for one test are reported on each score report. Keep all score reports for your records. Once you've passed your required tests, you must apply for certification - please see last section for details on how to apply.

TOTAL TEST PERFORMANCE

Your total scaled score shows how you performed on the test as a whole and whether you passed the test. For TExMAT and TExES the score range is 100 to 300 with a minimum passing score of 240. For ExCET, the score range is 1 to 100 with a minimum passing score of 70. TOPT score range is 2 to 8 with a minimum passing score of 6. TASC and TASC-ASL scores are levels A, B, C, D, E with a minimum passing level of C (levels A, B and C are passing). A score of U indicates the test was unscorable. Minimum passing standards for the tests were established by the SBEC with input from committees of Texas educators. The passing score is designed to reflect the minimum level of knowledge required for effective performance by a beginning educator in Texas public schools.

Total test results are reported in terms of a scaled score. The scale score allows comparison among any version of the same test. The raw scores that are reported are not comparable from one version of a test to another.

You receive one point for each correct response and zero points for each incorrect response. Note that the scaled score is not determined by averaging the number of questions correct within each domain (or competency). Further information about scoring is available at www.texes.ets.org.

PERFORMANCE BY DOMAIN

In this section, data are reported by the major content areas, called domains. For each domain, the number of questions on the test and the number you answered correctly are indicated. This information is descriptive only. Individual domains do not have passing scores. Passing status is based only on the total test score. Note that the domains with the greater numbers of competencies have a greater number of questions on the test.

Nonscorable Questions. The total number of questions reported on your score report is typically less than the total number of questions on the test. Nonscorable questions are usually included on each test. These nonscorable questions are not used in calculating your score.

PERFORMANCE BY COMPETENCY

In this section, data are reported by competencies within the domains. For each competency, the number of questions on the test and the number you answered correctly are indicated.

It is important to use caution when interpreting data reported by competency. Evaluating your performance based on a small number of test questions should be done carefully. To understand more fully your performance on each portion of the test, refer to the list of competencies that is provided in the preparation manual for the test you took.

Registering for Future Administrations

Tests may be retaken, if necessary. Reminder, you may be required to obtain approval to test from your educator preparation program. Consult the current Registration Bulletin for the test dates and registration procedures. Registration Bulletins are available for download on the TExES Web site at www.texes.ets.org. You can also obtain a copy of the Registration Bulletin from the certification offices at Texas educator preparation programs. You can also register online at www.texes.ets.org.

Applying for Texas Certification

You must apply online and pay the appropriate fee if you have met all requirements for a Standard Certificate. Please refer to the State Board of Educator Certification web site at www.sbec.state.tx.us for application procedures.
